

COVID-19 restarting face-to-face Scouting risk assessment

Name of Section or Activity	87th Craigalmond Scouts	Date of risk assessment	04/10/20	Name of who undertook this risk assessment	Paul Gunderson	COVID-19 readiness level transition	Yellow
------------------------------------	----------------------------	--------------------------------	----------	---------------------------------------------------	----------------	--------------------------------------------	--------

Hazard Identified? / Risks from it?	Who is at risk?	How are the risks already controlled? What extra controls are needed?	What has changed that needs to be thought about and controlled?
<i>Hazard – something that may cause harm or damage. Risk – the chance of it happening.</i>	<i>Young people, Leaders, Visitors.</i>	<i>Controls – Ways of making the activity safer by removing or reducing the risk from it. For example - you might use a different piece of equipment or you might change the way the activity is carried out.</i>	<i>Keep checking throughout the activity in case you need to change it...or even stop it! This is a great place to add comments which will be used as part of the review.</i>

SUMMARY

This Risk Assessment covers both outdoor and indoor meetings under the Yellow readiness level Phase. It is noted that a maximum group size of 30 is permitted. Young people under the age of 12 (i.e. Scouts) do not need to socially distance between each other but Leaders and Young Leaders must distance themselves between other Leaders and young people. Where this is not possible for a short period, then a face covering will be used.

Following a discussion between Scout Leaders, we are hoping to return to face-to-face meetings on 02/11/20.

We plan to hold meetings outdoors in our Scout Hut grounds when the weather allows but given the time of year we expect that we will be mainly indoors. Activities will be sports, games and craft. No food will be involved. Our Scout Hut grounds are fully enclosed by fence, hedge and gate with adequate grassed space for activities.

There will be a maximum of 23 Scouts, 7 adult leaders and 0 Young leaders. i.e. the maximum of 30 will be respected. The intention is to split the troop in two, based on age, with face-to-face meetings between the groups alternating weekly. Under 12s will meet on different weeks from 12 and overs (there is currently a 7/13 split which will change over time and we will keep the split under review). All YP at a meeting will therefore follow the same social distancing rules.

Parent helpers will not be required. Our hall has adequate space for leaders to socially distance from each other and from Scouts with troop numbers reduced into groups. In advance of the meeting, the hall will have been deep cleaned. In particular, a single toilet will be cleaned and available for use in emergencies. This will be cleaned after each use.

For both outdoor and indoor meetings, the activities will have been adapted with social distancing and increased hygiene in mind. Equipment that is to be shared will be cleaned before and after use. Parents will be advised of the requirement to socially distance at drop-off and pick-up, and will be asked to positively sign up in advance each week using the Events functionality on OSM.

During the preparation of this Risk Assessment for Scouts, the generic RA for the premises has been fully referenced. All of the relevant sections have been included in

COVID-19 restarting face-to-face Scouting risk assessment

this RA and the control measures have been adapted as appropriate for Scout meetings.

PEOPLE

<p>1. Parents express anxieties or concerns over resumption of face-to-face meetings.</p>	<p>Parents.</p>	<p>We will send an email to parents/carers, advising them of the COVID-19 arrangements and their requirements. A separate email will be sent to leaders and young leaders.</p> <p>We will use the events functionality in OSM for parents to sign up for each session. By doing this, they are agreeing to comply with adult SD requirements and that they will emphasise to their child the need to maintain SD from adults and to follow hand sanitising instructions.</p> <p>We will use OSM to register attendance for young people and leaders which will keep the information for as long as necessary for track and trace.</p>	
<p>2. Increased risk of infection spreading if social distancing is not maintained at drop-off and pick-up.</p>	<p>Young people, Leaders, Parents, Visitors.</p>	<p>We are contacting parents and carers to communicate clear expectations for all involved, emphasising the importance of adhering to specified drop-off and pick up times/locations, and of social distancing. Scouts will be “handed over” at the pedestrian gate to a Leader who will direct them to the hand sanitisation station.</p> <p>At the end of the meeting, parents will be encouraged to wait in the East end of the grounds (with enough room for SD) and Scouts will be handed back one at a time after sanitising their hands, parents will be reminded importance of social distancing when leaving.</p> <p>We will liaise with other sections meeting on the same night at the same place to avoid conflicting pick up/drop off times.</p>	
<p>3. Increased risk of infection spreading if social distancing is not maintained during activities.</p>	<p>Young people, Leaders.</p>	<p>Children under 12 do not need to socially distance from each other but anybody age 12 and over does. Leaders and Young Leaders will maintain distance from others. Where this is not possible for short periods, face coverings will be worn.</p> <p>Each activity will be chosen and adapted in advance to ensure they are COVID-safe, and no activities will be undertaken where distancing is not possible for anybody aged 12 years or over.</p> <p>Clear advice will be given to all adults and young leaders regarding social distancing.</p>	

COVID-19 restarting face-to-face Scouting risk assessment

<p>4. Increased risk of infection spreading if proper hygiene is not maintained.</p>	<p>Young people, Leaders, Visitors.</p>	<p>Hygiene requirements for every activity will be clearly advised when the activity is introduced during the meeting. Communal equipment will be cleaned before use. Every person attending the meeting will be encouraged to wash their hands before arrival (i.e. at home). On arrival, they will sanitise their hands and then during the meeting as required. Finally, they will sanitise their hands before leaving and they will be encouraged to wash their hands when they get home. Five hand sanitisation dispensers have been installed in the hall at appropriate locations. Portable stations are available for activities outdoors in the Scout Hut Grounds.</p>	
<p>5. Exclusion of members affected by, or vulnerable to, COVID-19.</p>	<p>Young people, Leaders.</p>	<p>Parents and carers will be asked prior to our first face-to-face meeting if any special support is required for their Young People in order to ensure our programme is inclusive. Where children with additional needs are identified that require individual assistance, we will request that an adult from their own household attends the meeting to provide specific support since distancing rules don't apply. Leaders will be encouraged to share concerns with each other during the planning stages.</p>	
<p>6. Increased risk of infection due to group size.</p>	<p>Young people, Leaders.</p>	<p>Sessions are being planned in line with latest guidelines on group size and meeting formats. Currently a maximum of 30 people. We expect a maximum of 23 Scouts, 7 adult leaders and 0 Young Leaders. There is not a specific adult:young person ratio for outdoor activities at the usual meeting place (2 adult minimum for indoors and 1:12+1 for outdoors and away from usual meeting place). We have sufficient leaders to run each session safely and within defined ratios. If some adult leaders are not available on a particular session, there are many other Leaders within the Group who will be able to attend – bearing in mind required ratios and maximum group size of 30.</p>	
<p>7. Deficiencies and lapses in adult training.</p>	<p>Leaders.</p>	<p>All adult leaders who are involved in face-to-face meetings have up-to-date PVGs. All have safety and safeguarding training validation complete.</p>	

COVID-19 restarting face-to-face Scouting risk assessment

8. First Aid Training.	Leaders.	At least one adult leader will have up to date First Aid (First Response) training.	
9. Increased risk of infection when dealing with first aid incidents.	Leaders, Young People, Parents, Visitors.	Leaders will wear face covering and protective gloves when administering first aid. For outdoor meetings, the first aid kit will be available in the grounds. Adults will minimise physical contact with the injured party. If CPR is necessary, only chest compressions will be used.	
10. Development of symptoms during a meeting.	Leaders, Young People, Visitors.	If a young person develops symptoms of COVID-19 during the meeting, they will be isolated from the rest of the group, kept within view by the leaders and the carer will be called. If an adult develops symptoms of COVID-19 during a meeting, they will physically isolate themselves from the rest of the group and may need to go home. If leader ratios become compromised, the meeting may need to be abandoned and all parents called to collect their child or another warranted leader may be called at short notice to stand in.	
11. Group Leaders are at greater risk if they are not familiar with this Risk Assessment.	Leaders.	<p>This is an easy to follow checklist for group leaders to follow. Printed copies will be available in the hall.</p> <p>At least 7 days before arriving for the first meeting:</p> <ul style="list-style-type: none"> ● Read and fully understand the Risk Assessment (this document) <p>Before each session:</p> <ul style="list-style-type: none"> ● Clean surfaces before participants arrive. ● Check supply of sanitiser at all sanitiser stations. Top up if required. ● Ensure social distancing is observed by leaders during meeting preparation. <p>During the session</p> <ul style="list-style-type: none"> ● Ensure social distancing is observed (aged 12 and over) ● Encourage frequent hand sanitising. ● Disinfect equipment before and after use. 	

COVID-19 restarting face-to-face Scouting risk assessment

		<p>After each session</p> <ul style="list-style-type: none"> • Ensure social distancing is observed by leaders after the meeting during clear up. • Clean surfaces after participants leave. • Check supply of sanitiser at all sanitiser stations. Top up if required. • Complete the log at www.grantonscouts.org.uk/log 	
12. Participants are at greater risk if they are not familiar with this Risk Assessment.	Leaders	Suitable signage has been drafted and has already been displayed in the building.	
13. Track and Trace authorities need to know who has been using the hall.	Leaders	A register of names and contact details for everyone attending each session shall be kept using OSM – including Scouts and leaders. These lists will be made available to Track and Trace authorities if required (if a case is confirmed in anyone who has used the hall).	
14. Signing the hall use sheet carries a risk of infection (paper and pen).	Leaders	A mobile-friendly web page has been developed at www.grantonscouts.org.uk/log and this will be completed by the group leader at the end of each meeting to confirm start and end times, and that cleaning has been carried out before and after the meeting.	

COVID-19 restarting face-to-face Scouting risk assessment

PROGRAMME			
15. Lack of choice of suitable programmes and activities.	Young people, Leaders, Parents, Visitors.	We plan to offer as near normal Scout programme activities, Games, etc. over the coming months. The programme will promote the social “Fun and Friends” element of Scouting in a safe and secure fashion. Programme themes will be selected and adapted with COVID-Safe in mind. We will make use of COVID-safe activities and programmes provided by the Scout Association where appropriate.	
16. Increased risk of infection spreading from unhygienic activity equipment.	Young people, Leaders, Parents, Visitors.	All activity equipment will be cleaned before and after being used, and will be stored appropriately between meetings. The volume of equipment used will be limited as much as is feasible, and sharing will be minimised. Equipment that is easily sanitised will be favoured.	
17. Increased risk of infection spreading due to meeting duration.	Young people, Leaders.	Meetings will last no longer than one hour, which is appropriate for the age range.	
18. Increased risk of infection spreading due to meeting place size.	Young people, Leaders.	Children under 12 do not need to socially distance from each other, however Scouts aged 12 and over do. Activities will be planned appropriately to ensure social distancing can be maintained. The size and layout of the Scout Hut grounds lend themselves well to social distancing, further reducing the demonstrably low risk of infection outdoors. For indoor meetings, social distancing will be respected as required between adult-to-adult and adult-to-YP, ensuring the risk of infection spreading is minimised. The hall is approximately 13m x 8m. A few generic photos are available at https://www.grantonscouts.org.uk/contact-us/hall-bookings/	

COVID-19 restarting face-to-face Scouting risk assessment

<p>19. Increased risk of infection spreading due to poor contingency planning.</p>	<p>Young people, Leaders, Parents, Visitors.</p>	<p>Leaders will be encouraged to monitor everybody's compliance with social distancing requirements with reminders as required. Leaders will temporarily stop any activity if social distancing rules between adult-to-adult or adult-to-YP are compromised. The activity will re-start after necessary adjustments. Leaders will report any serious concerns to the GSL.</p> <p>In case a meeting needs to be abandoned for any reason, Leaders will have mobile phone numbers of parents and carers (via OSM), and will ask them to remain available during meetings.</p>

COVID-19 restarting face-to-face Scouting risk assessment

PLACES			
20. Suitability of outdoor venue.	Young people, Leaders, Parents.	<p>Our outdoor meetings will take place in the Scout Hut grounds, which is our regular meeting place and well known to all leaders, Scouts and parents. Adequate on-street parking is available for parents and carers to drop off and pick up at the prescribed time. Young People will be asked to visit the toilet before leaving home but will be allowed to use the indoor toilet at the hut if needed (one toilet will be available for emergency use).</p> <p>Parents will be asked to ensure that their children are dressed appropriately for the weather for outdoor meetings.</p> <p>If weather is really unsuitable for an outdoor meeting, we will use indoors and advise parents in advance as much as possible.</p>	
21. Suitability of indoor venue – ventilation.	Young people, Leaders.	<p>There are 2 powerful wall-mounted fans already installed in the hall. One on the North wall and one on the West wall. Each can be set to blow into or out of the building. During each indoor meeting, we will switch both fans on at full power (5) in the extraction mode. Fresh air will enter the hall under the eaves.</p> <p>(These fans were installed as part of our Hall re-build in 1994 with compliance to the appropriate building regulations. We have estimated that the volume of the hall is approximately 500m³. <u>A similar current model of fan</u> has an extraction volume of 133 litres per second which is equivalent to approximately 480m³ per hour. Each of the 2 fans will therefore give a complete forced air change per hour which we believe is adequate and better than natural air flow via open doors).</p> <p>(There are no windows in the building to open. It is not practical to keep the main entrance doors open during the meetings as this may pose a security and/or child safety risk. Additionally, it may be possible to retain the main hall fire exit door open although this is not our preferred method of ventilation).</p>	

COVID-19 restarting face-to-face Scouting risk assessment

<p>22. Use of Kitchen: Higher risk of infection spread if kitchen equipment is used and hygiene not carried out.</p>	<p>Everyone using the hall.</p>	<p>The kitchen will be closed and out of bounds until further notice. However, it will not be locked and can be used in emergencies - e.g. to get fresh drinking water or reach the communal first aid kit. If the kitchen is used in an emergency, then the group using it is responsible for disinfecting all surfaces touched (door handles, taps, cupboard handles, etc.</p>	
<p>23. Hygiene of hall in general: Higher risk of infection spread if hygiene not carried out.</p> <p>*Deep Clean in this context is the HSE definition “Deep cleaning is a thorough clean of all frequently touched surfaces..”.</p>	<p>Everyone using the hall.</p>	<p>Leaders will clean and disinfectant surfaces touched both before and after the meeting. Leaders will complete the hall use and cleaning log on smartphones at www.grantonscouts.org.uk/log after each meeting to confirm that they have cleaned in accordance to the guidance. Surfaces such as the following will be cleaned before and after meetings and confirmed on the log.</p> <ul style="list-style-type: none"> ● Handles on all doors ● All light switches ● All power switches ● All door push plates ● All taps ● All toilet flushes <p>Additionally, the hall will be deep cleaned* on a weekly basis.</p> <p>Used paper roll for cleaning toilet areas should be placed in the bin liner provided which should be tied off and placed into the grey bin at the front of the hall.</p>	
<p>24. Hazards associated with outdoor space: tripping hazards; lack of access control; lack of cleaning.</p>	<p>Young people, Leaders, Parents.</p>	<p>Our Scout Hut grounds are physically enclosed by fencing, hedge and lockable gates. Programme planning will include additional Non-COVID risk assessments as per normal practice. Games, activities, etc. will be explained and potential dangers highlighted where required. Leaders will always be in sight of Scouts in the grounds (maintaining SD).</p>	

COVID-19 restarting face-to-face Scouting risk assessment

25. Increased risk of infection spreading due to poor toilet hygiene.	Young people, Leaders.	<p>For both outdoor and indoor meetings: One toilet (the accessible one) can be used and will be cleaned/sanitised before and after every meeting. Anyone using the toilet will be asked to use hand sanitiser before and after their visit, and to use the hot water and soap available in the toilet. Used paper towels for drying hands will be disposed of into the bin liner in the bin provided in the toilet. After each session, the bin liner will be removed, tied off and deposited into the grey bin at the front of the hall. A new bin liner will be placed into the bin for the next hall user.</p>	
<p>Review: This risk assessment is for a section to move from one COVID Readiness alert level to the next, an additional risk assessment will be produced for each move proposed.</p>
